*****Exciting News for SLC Members*****

SLC Members:

Greetings to all of you and I hope that all of you are doing well. The SLC continues to grow and we are very excited about that. The month of July was a record month for the SLC pumping 3,461,633 gallons out of our stations plus bulk fuel sales. The more fuel we sell, the more money we can save you! We have a new station opening very soon in West Monroe, Louisiana with several others in the works.

The main reason for this letter is to share some exciting information with all of you. At the American Loggers Council Summer Board Meeting in July held in Moline, IL; the Southern Loggers Cooperative became full members of the American Loggers Council. This means that the SLC President will have a seat on the board of directors of the American Loggers Council as a voting member for you. The American Loggers Council is a tremendous organization that the SLC has been involved with for many years as a supporter and sponsor. The Southern Loggers Cooperative was actually formed by a group of Louisiana loggers while attending an ALC Annual Meeting. The ALC does more than you can imagine on the policy and legislative side of our industry and they are very important to us and to each of you. What the SLC's membership in the ALC means to you is that **EACH member of the SLC** is now automatically a member of the ALC through your membership with the SLC. There are no extra dues from you at all. That is all covered in your membership to the SLC. Many of you are already members of the ALC through your membership in your state logging associations or councils. However, many of you were not previously members until the SLC was accepted into full membership of the ALC. I do want to inform you that your membership in the American Loggers Council automatically makes you available for truck rebates with Western Star and Peterbuilt through the ALC. Please visit the American Loggers Council website at www.amloggers.com. To look at specific information about the truck rebates, please visit <http://www.amloggers.com/news/>.

You will be receiving other information in the future about programs that are available to you through your new membership in the ALC as well as legislative updates. We are very excited about this new partnership which will allow the combined efforts of the SLC and ALC to bring all of you greater savings and a bigger voice!

Thanks and God Bless!

Todd
